# MONTAGUE FOR OFFICE AGAIN?

Friends of Former Executive Discuss Subject.

## OPPOSING FORCES MAY BE DIVIDED

View is Expressed That "Organization" Will Not Be Solidly Behind Any Candidate.

Tucker and Mann Perhaps the Most Active.

Although still far in the future, the next gubernatorial contest is being widely discussed in political circles, and by far the most interesting suggestion in connection therewith is one to the effect that Governor Montague enter the race again for the office.

Mr. Montague is being talked of by some of his friends, who have always responded loyally to his political aspirations, and they declare that after four years of discussion from public life his candidacy would arouse enthusiasm among the voters, and that if he should finally get into the contest he would make a most formidable competitor for the honor.

The former Executive is going on quietly with his law practice and work at the law school, and has given no intimation of any early intentions of re-entering politics.

Indeed, it is known that as at present advised, he is averse to standing for the governorship again, and some of his close friends do not believe that he will consider the matter seriously.

However, Governor Montague's striking record in the public affairs of the State and his wide acquaintance and popularity among the voters make any suggestion of his re-entering the field of politics at once interesting, and much of the office again after one term has been suggested.

The Constitution of the State does not permit a Governor to succeed himself immediately after the expiration of his term, but it does hold to hold the office again after one term has been intervened. The last Virginia Executive to make this record was "Extra Billy" Smith, of Fauquier. However, Montague was the first Attorney General of the State during the present generation to capture the higher honor of Governor while holding the former office, and he is also the first who secured the nomination to run in one or more previous campaigns. The coming contest for Governor is giving promise thus early of being the most interesting one fought in Virginia in many years.

## Some Early Work.

Judge Wm. Hodges Mann, of Nottingham, was everywhere regarded as one of the leading aspirants. Another strong candidate is former Congressman Harry St. George Tucker, who is president of the Jamestown Exposition.

Two have probably done more preliminary work relating to the struggle than any who are looked upon as having gubernatorial "bees in their bonnets," but there are several others who are not neglecting any opportunity of letting their friends know in a quiet way that they will be in the fight when the final line-up comes.

Congressman Carter Glass, the Sixth District, will probably be a candidate, and if he is he will make a warm campaign out of it. The same is true of Judge R. T. W. Duke, of Albemarle.

Corporate Commissioner Henry C. Stuart, of Russell, has strong friends in many sections, who earnestly desire him to make the race, but he absolutely declines to discuss the matter in any form until he leaves the State, which will be next year. There are many who believe that when Mr. Stuart retires as commissioner he will announce his candidacy for Governor, though no one is authorized to speak for him on the subject.

Hon. James Alston Cabell, of this city, will very probably run. Mr. Cabell has been urged by many of his friends to enter the lists, and he declares he will consider the matter some time later on, when he thinks it proper to make an announcement.

In any event the battle will be a great one, and it promises at no stage to be lacking in interest.

## New Alignments.

There is already talk of new alignments and of the working together of forces that have not been especially friendly in the past.

Frequent stories from Washington and elsewhere have given the impression that just now there will have the support of some of the strongest "organization" leaders, and now some who have usually trained with them are saying that the "organization" will not be solidly behind any one candidate, and that it will be more of a "free-for-all," "go-as-you-please" race than any that has been fought out in the State in years.

There will probably be next year, after the presidential election, before anything in the way of a definite "line-up" will develop out of the situation, but the contest is being talked of freely at almost every public place where men are wont to gather.

## PROVE EVERY CLAIM

Dr. Williams' Pink Pills a Specific For Anemia and a Safe Family Medicine.

When the body becomes run down, either as a result of overwork, worry or a severe illness, an examination of the blood would show it to be weak and watery. This condition is called anemia, which is the medical term for "bloodless." The common symptoms are paleness of the lips, gums and cheeks, shortness of breath and palpitation of the heart after the slightest exertion, dull eyes and loss of appetite.

Mr. Louis L. Clark, a painter, of 19 Lincoln Place, Plainfield, N. J., says: "Last May I was obliged to undergo an operation for appendicitis, and while the operation in itself was successful, I did not recover my strength and health. I was confined to my bed for over a month and was under the doctor's care. When I was able to get up my legs were so weak and unsteady that I could only walk with a cane with difficulty. "I was getting no better and could not think of going back to work. I was discouraged, when a neighbor told me that Dr. Williams' Pink Pills had cured her and advised me to try them. I began taking them about the middle of June and soon felt so much better that I kept on and was cured."

Dr. Williams' Pink Pills have cured rheumatism, chorea, neuralgia, the grip and fever, and, as the health of the nerves depends upon the purity of the blood, they are invaluable in neuralgia, nervous debility, sleeplessness, dizziness and even locomotor ataxia and paralysis.

Dr. Williams' Pink Pills are sold by all druggists or sent, postpaid on receipt of price, 50 cents per box, six boxes \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y.

Echard a residence lot on Houston Street, Lexington. The price paid was \$1,000. Mr. Echard will at once begin the erection of a two-story dwelling-house.

Mr. John M. Quisenberry expects soon to have a new building erected on the corner of the Lexington Hotel, recently purchased by him from Dr. Robert Glasgow and Mr. Samuel O. Campbell. The improvements will consist of the installation of a new heating plant, several bathrooms and closets on the various floors of the hotel, and a partial refurbishing of the rooms with new furniture. The contemplated expenditures will reach about \$4,000 or \$5,000.

## A NEW COUNTRY.

Railroad and Telephone Will Make Business Hum.

(Special to The Times-Dispatch.)

MBLERS, VA., March 28.—The Southern Bell Telephone Company has under construction from South Boston to Mblers, Va., a new line of telephone line that will come by this place, and will put the community here in direct telephone connection with the various towns of the county, and the line will be completed within a few months.

It is needed here, as almost the entire business that is done here in the shape of merchandise is done with Richmond.

This new telephone service with the Tidewater Railroad passing through the town promises to give the industries of the people here, and there seems no doubt but there will be large additions made, and improvements will be made in the future.

One of the great drawbacks to the town heretofore has been the lack of facilities of railroad and the proper telephone connection with the outside world, and with these fully assured there seems to be nothing in the way of progress for the town.

The Tidewater will build its depot here southeast from that of the Southern, located about one-fourth of a mile east of the town. This lot has been laid out ready for the building and is situated on a hill with the land rolling each way.

Mr. J. P. Houston, division engineer for this road, will move his offices here in a few days, and the entire road will be under his direction and will direct its affairs from this point.

The common labor of this community is receiving more for its work at present than was ever known to the people here. The various saw-mills, railroad construction, the contractors and various other public works have secured a very available man that will work at all, and the large force of laborers that heretofore have gone North are here now doing the work.

The average price paid these men will run to \$1.50 per day, and as a result of the price many are arriving here daily, and are being given employment by one contractor or another. As a result of this state of affairs the farmer has been the worst sufferer.
